## Notes

Our setting will be set up in a natural way, seeking to bring the outside world inside, taking consideration of the current season and added to when we cover special events/occasions.

At George Grenville Academy, we believe that our holistic language based curriculum is the key to success for our children. Exposure to a broad range of inclusive books, environmental walks, engagement with our community and exciting clubs, enable our children to develop a wide range of vocabulary.

Communication and language is at the forefront of all we do. Opportunities are maximised through quality interactions, carefully considered learning environments and planned first-hand experiences. Through this approach, our children are enabled to acquire the confidence, knowledge, skills, values, attitudes and behaviours for successful life-long learning.

We understand that all children are unique, have individual interests, needs and learn best in different ways. This all links to “The Characteristics of Effective Teaching and Learning.”

- Playing and Exploring
- Active Learning
- Creative and Critical Thinking

The way children engage with others and their environment underpins learning and development, supporting children to become and remain motivated.

These are carefully considered by staff in our Early Years classes to ensure all children reach their full potential and progress across the seven areas of learning in the Early Years Curriculum:

Personal, Social and Emotional Development

Communication and Language

Physical Development

Literacy

Maths

Expressive Arts and Design

Understanding the World
