

Year 6 GGA HOME LEARNING ACTIVITIES – WHAT WE MEAN

Below are some ideas for what could count for the different areas of home learning, but every household is different, as is every child. You, as parents will know what works best for your child, so feel free to add in different things that will suit your children...have fun!

We would ask that children try to complete at least 2 boxes from the green area of their home learning chart every day, but beyond that, how you create targets etc is over to you!

If you would like to photograph the chart each week and email it to the teacher (with or without your child holding it), that would be great as a way of them keeping in touch with what the children are up to.
